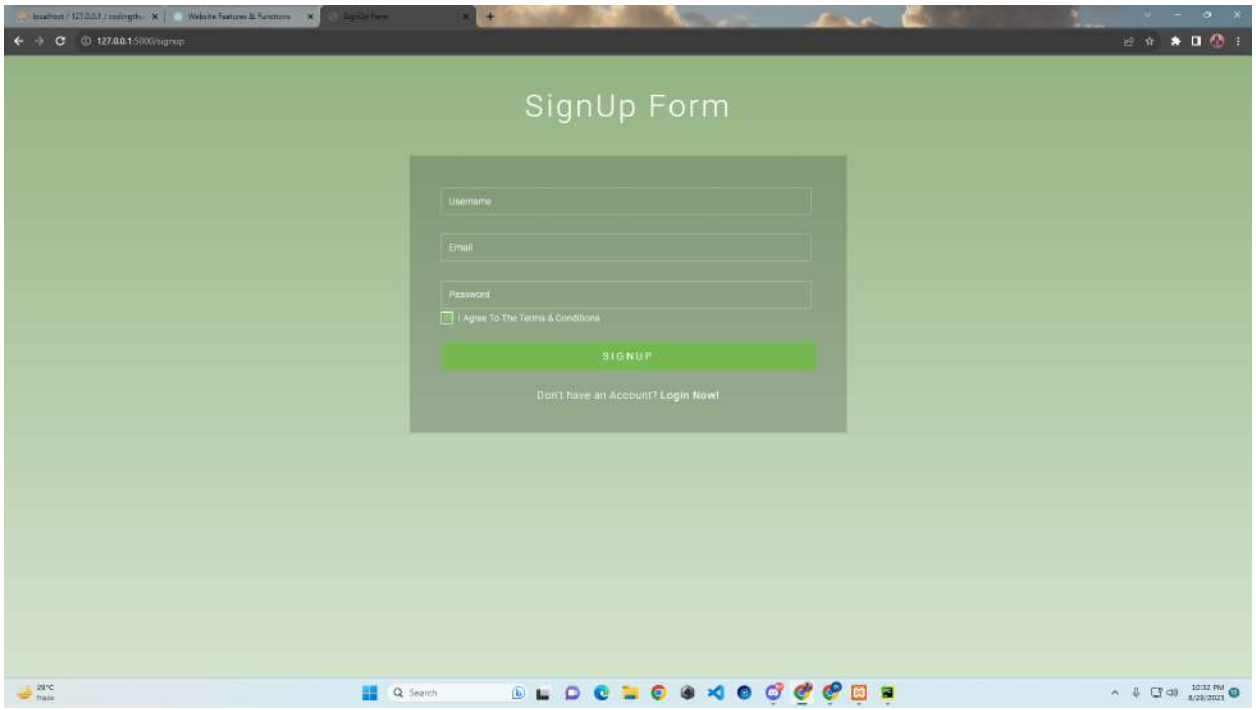
---

1. Sign Up and Login

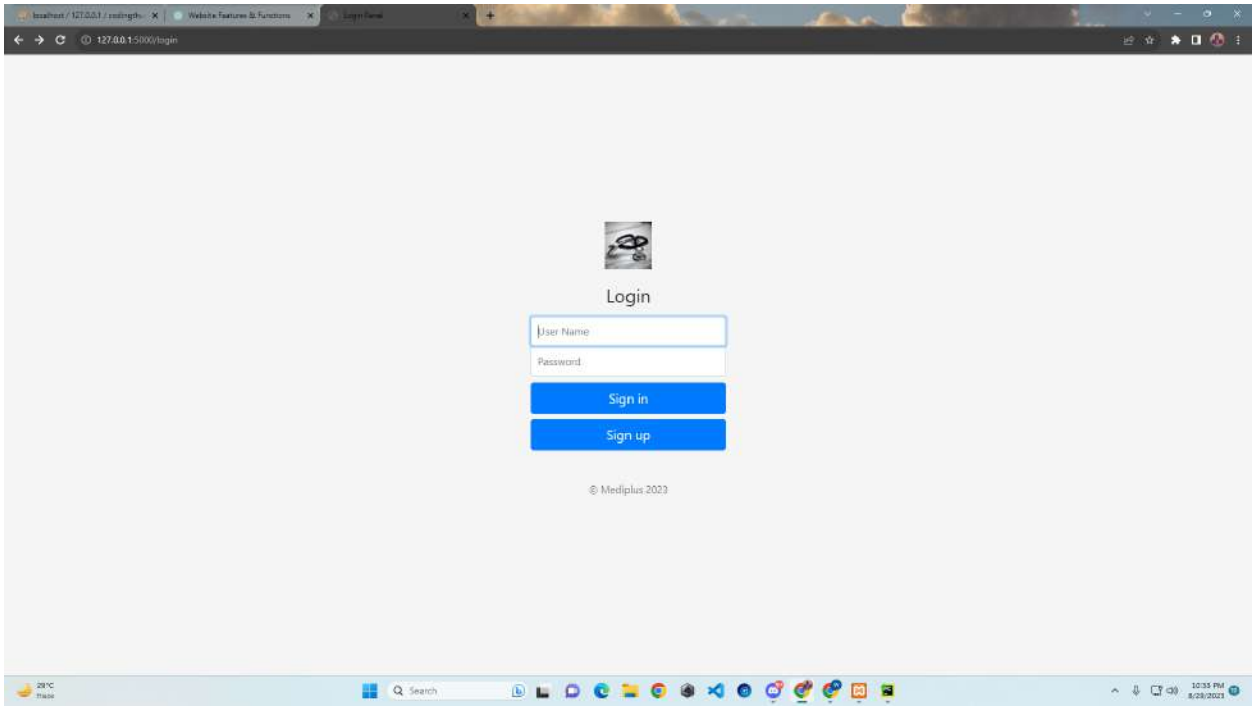
Creating an Account

If you're new to the website, you need to create an account. Click on the "Sign Up" page and provide the required information, including your name, email, and password. Follow the prompts to complete the registration process.



Logging In

For returning users, click on the "Login" page. Enter your registered email and password, then click the "Login" button. You'll be redirected to the home page upon successful login.



---

2. Navigation Bar

Home

The home page welcomes you with a featured medical blog post. Feel free to explore the content.

Available Doctors

In this section, users can search for doctors based on their name, specialty, and availability. Users can also book appointments with their preferred doctors.

Medicines

Users can order medicines by providing their name, email, and the desired quantity. A search feature is available to find specific medicines.

Rooms

Users can book hospital rooms by providing their details. Admin manages room availability and can modify or delete room bookings.

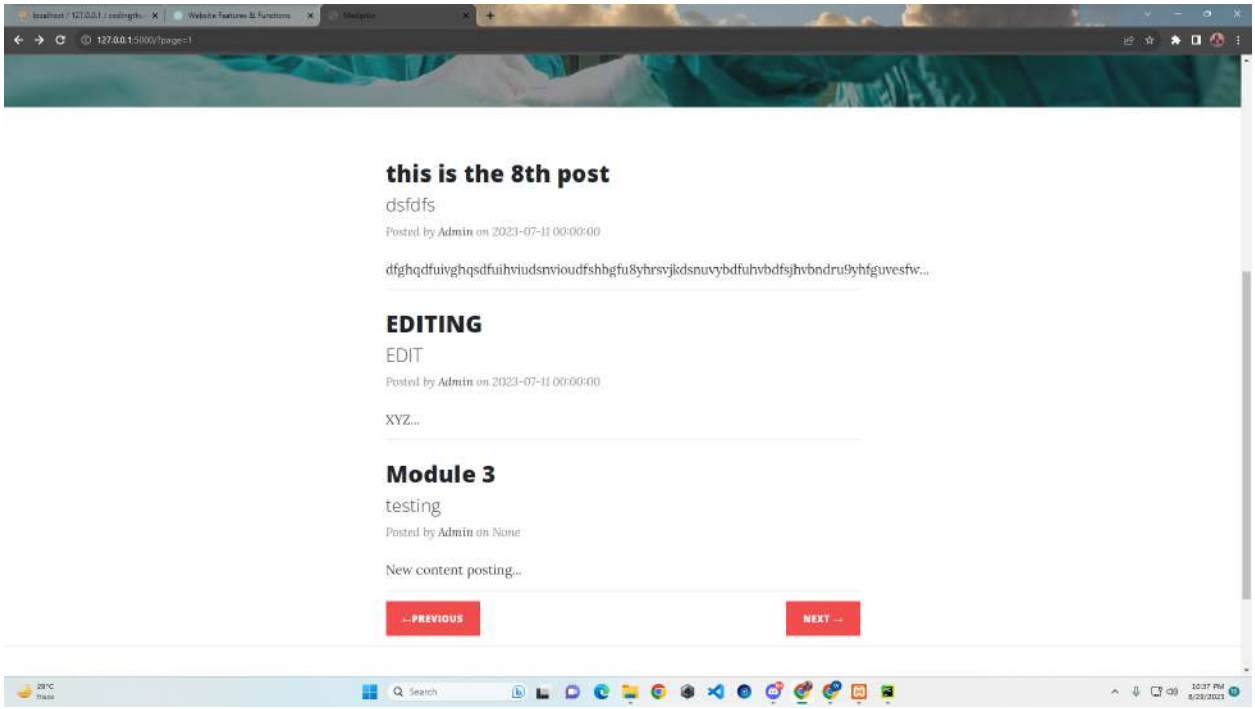
Ambulance

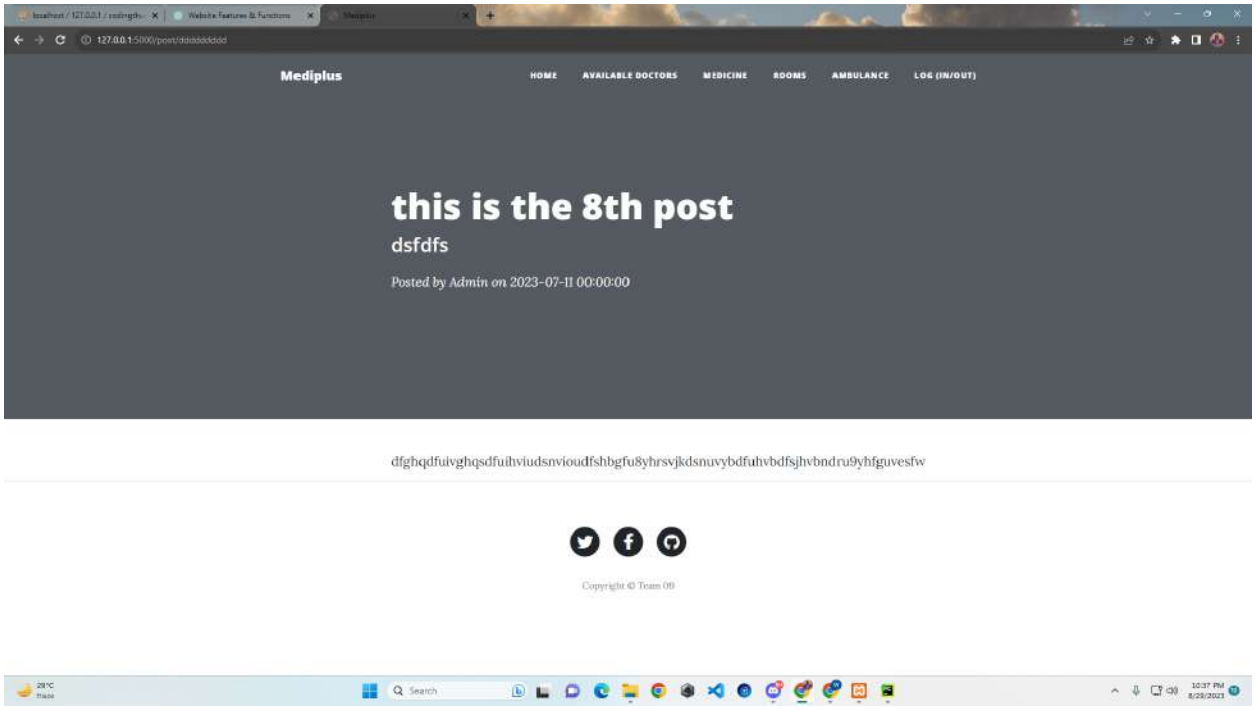
Users can request ambulance services by providing necessary information. Admin oversees ambulance requests and can edit or remove them.

USER FUNCTIONS

Medical Blog

Users can read informative medical blog posts available on the home page. These posts are regularly updated to provide valuable insights into various health topics.





Available Doctors

Users can see the available doctors and search them by their name, specialty and availability. Users can also book an appointment.
